

The Fund to Advance Racial Equity (FARE) provides grants to nonprofits working to build understanding and strengthen our community across racial lines.

Our hope is that grants made from this fund drive changes in practice – systemic, institutional and individual – to eliminate racial bias and discrimination that will ultimately lead to more equitable outcomes for all North Texans.

Funding Priorities

- > **Build understanding** between racially diverse groups to raise awareness of challenges as well as solutions.
- > **Support community leadership** that advances diverse perspectives.
- > **Improve trust** between residents and law enforcement to bridge gaps, heal historic divides, and develop new relationships.

FARE Advisory Council

Advises work of the Fund and a subcommittee selects award recipients.
